SARAH LEVY:

Sarah has shared some of her thoughts with us:

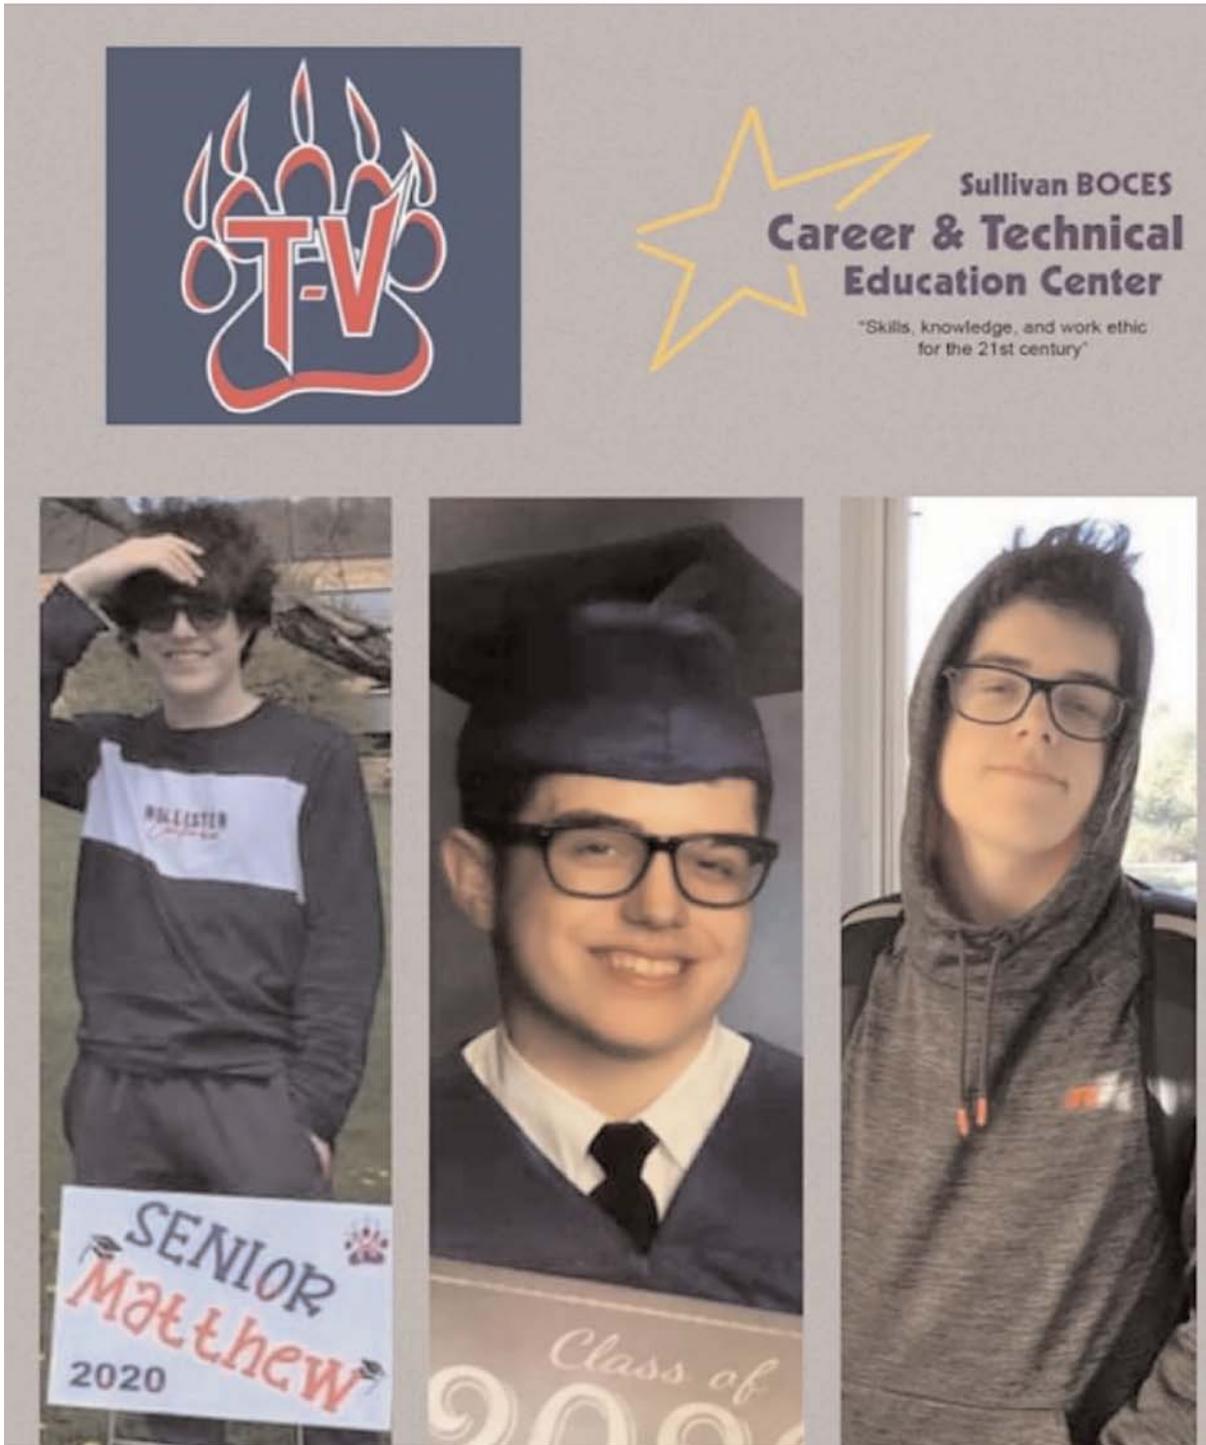

"I remember the first time someone asked me what I wanted to be when I was older. I replied, 'a princess'. The answer to that question has changed throughout the years. My final answer to that question? A veterinarian. Why? Well, there are lots of reasons. Mainly because animals need care just as much as we do — so why not become a person who can make their lives better? I always grew up with some type of animal around me. I guess it kind of grew on me and showed me what I am supposed to do. I went to BOCES for animal science where I worked with tons of animals — from small as hamsters to large as cows. This program has taught me many things that I did not know before. I cannot wait to go to collage to be a veterinarian and learn even more. It has been quite a journey so far. Along the way, I have made many friends and developed a passion for photography. But the journey has just begun. Many have followed me throughout my journey and, hopefully, will continue to do so. I have lost some along the way, but they will always be a part of me."

Beautiful words, Sarah! Best wishes as you continue your journey. You make us **#TVproud!** ❤️🇺🇸🐻🇺🇸💙
